

Automatic Gas washer-dryer combination illustrated is the new RCA WHIRLPOOL.

GAS CLOTHES DRYERS INSTALLED FREE

Select yours today! This money-saving offer is for limited time only!

If you've been thinking about a new Gas clothes dryer, buy it now and save! For a very limited time, normal installation is free! This special offer applies to participating dealers selling Blackstone, Easy, Hamilton, Maytag, O'Keefe & Merritt, Philco-Bendix, RCA Whirlpool, Roper, Speed Queen and Sunaire.

Visit your Gas appliance dealer or Gas Company showrooms for a demonstration and complete details. If you select one of the new Gas washer-dryer combinations, your dryer installation allowance will be credited to its installation.

For modern Gas service beyond our system, see your L-P Gas dealer.

Look what a Gas clothes dryer will do for you!

GIVES YOU MORE FREE TIME!
A Gas dryer lets you launder any time—day or night, rain or shine. You can do some each day if you wish.

URNS OUT NICER LAUNDRY!
Corduroys and jeans come out of a Gas clothes dryer wrinkle-free and ready to wear. Sheets need no ironing.

DRIES FASTER! Laundry dries faster in a Gas clothes dryer than in any other type of dryer—faster even than in California sunshine.

COSTS LESS TO USE! About 10¢ a load! That's all it costs a typical family of four to dry an average 8-pound load in a Gas clothes dryer.

General George Support of Aged Relatives Boosted as Tax Deduction Accepts NAM Regional Post

By CHARLES E. CHAPEL
Member of the Assembly

General Harold L. George, vice president, Thompson-Ramo-Woodridge, Inc., today accepted an appointment as regional chairman of the membership development committee of the National Assn. of Manufacturers, it was announced by Paul C. Graham, president, Graham Brothers, Inc., regional vice president of the association.

A current member of the Beverly Hills City Council and past mayor of that city, General George served as commanding general of the Air Transport Command during World War II and as senior representative of the United States Army on the staff of the United Nations following the war. Prior to joining Ramo-Woodridge, he served as vice president and general manager of Hughes Aircraft.

Realty Firm To Sell Lots In Hawaii

With the opening of Hawaiian Paradise Park, Alter Realty & Insurance, 1436 Marcelina Ave., has been appointed sales agent for a new development of land sites on the island of Hawaii.

Located on the coast of Hawaii, Hawaiian Paradise Park offers full one-acre lots, each having a minimum of 135 feet, fronting on surfaced roads. Sites are priced at \$795, with \$165 down and monthly payments of only \$10. The development is located 10 minutes from Hilo, island capital, which is a city of 24,000.

Six separate parcels of 40 acres each have been set aside in the new development for schools, shopping centers, and parks; and a 3.4 acre site on the ocean front has been dedicated for use as a community playground and picnic area.

FREE ELEMENTS

There are 92 known elements of which about 30 occur in nature in a free state, according to chemical science.

My Assembly Bill No. 825, introduced January 23, 1959, is an addition to the Revenue and Taxation Code of the State of California which reads thus: "In computing taxable income there shall be allowed as a deduction payments made by responsible relatives required to contribute to the support of a recipient of aid under the provisions of Chapter 1 (commencing with Section 2000) of Division 3 of the Welfare and Institutions Code, the Old Age Security Law."

The reason for the bill is that most people in California who contribute to the support of aged relatives receiving the "Old Age Pension" have mistakenly believed that they could count contributions as deductions from the amount paid to the State as income tax. Such responsible relatives have claimed the deduction for years and then found to their surprise that it was not allowed.

IT SEEMS to me only right and proper that this should be a deductible item, hence I had the bill prepared and introduced it on my own volition, without being asked to do so by any pressure group. It is of state-wide interest and is in

accord with my personal policy and philosophy of reducing all kinds and types of taxes instead of increasing existing taxes or levying new taxes.

Those who live within the 46th Assembly District should write to me at Assembly Chambers, State Capitol, Sacramento 14, expressing their opinion of the bill. Those living in other Assembly Districts should write to their own Assemblymen. However, all residents of Los Angeles County also should write to Senator Richard Richards, Senate Chambers, State Capitol.

FOR EIGHT long years I carried the majority of all bills pertaining to professional engineers because I am licensed as a Mechanical Engineer by the State of California, hold a

B.S. degree in Engineering, and belong to several engineering societies.

However, this year I decided that it was time to let some other Assemblymen carry the load and have persuaded the engineers to pass their bills around. Nevertheless, I am helping these Assemblymen and shall continue my active interest in support of these bills. Those interested should write to me and specify what type of engineering they practice; that is, electrical, mechanical, etc.

THE ASSEMBLY postal clerks tell me that one Assemblyman from San Diego County and I have received more mail so far than any other two Assemblymen in the entire House. I do not know

what draws mail for the member from San Diego but in my case I believe that the mail is stimulated by the weekly column I write, which is graciously published in full each week by most of the newspapers in or near my district.

I am very glad to get mail because this enables me to know what you think of any bill. If you do not know the number of a bill, explain what you think it is about and write to the Bill Room. If they do not send you what you want, write to me. The more specific you are, the faster will be the service we give you. If you want more than two copies of any bill, the Bill Room makes a small charge, depending on the number of pages in the bill.

Putting telephone know-how to work for national defense

New phone network adds lightning punch to the nation's defenses

Phone lines today are speeding up the nation's air defense by making it act almost automatically. The lines are nerves of a new system called SAGE. With faster speed than ever, these lines flash signals from wide-spread radar outposts into SAGE control centers. There, the signals feed into computers that instantly tell Air Force men what's in the

air and where it is. Then, in a fraction of the time it once took, the men can use SAGE's phone lines to order jet aircraft or missiles skyward. Telephone people are fast completing SAGE's nerve system as part of our role in National Defense. And we'll watch over it with care—watch to see that it's always working for your safety and security.

Working together to serve you better...  **Pacific Telephone**
